Sir

Knowing you were aware of the within Circumstances I deferred sending it to you untill I had perambulated the parish which (thanks to Mr Bullen) is now done. I am going to lodge the Book this day in the parish and in Consequence of the reaping being so general I think it better to delay doing your parish of Tullow herein untill some of the hired vagabonds are gone home and I can then proceed with less obstruction I hope you will for the benefit of all parties have every information for me you can, and also a person if possible who is acquainted with the bounds, I have an order for as many police as I think necessary therefore there will be no fear of decline
