Observations.

The Appletement of this Parish has been Calculated by a percentage on the Real acuable Value of the Land. - It will be found that a percentage of 9,8 equal to £9-12-6 on the Annual Value of every Pound, gives a Sum of Two Hundred and five Pounds ~~of~~ Sterling being the amount of Composition for the entire Parish, and ~~[illegible]~~ and a fraction of acre —

A. R. P.

Donor Contains 5-4-0-4 Pett. and the acuage charge of 1-9 of acre produces a Sum of £47-12-0 being a fraction More of acre than the Calculation at the percentage —

A. R. P. £ S. D.

Stickins Contains 169-1-18 Pett. acuage charge of acre 1 3½

Caragh Contains 302-1-19 Pett. acuage charge of acre 1 11¾ lye by a fraction.

Gingerstown Contains 114-0-12 Pett. acuage charge of acre 2 1

Holberstown Contains 220-1-13 Pett. acuage charge of acre 2 3¼

Yeomanstown East. Contains 248-3-1 Pett. acuage charge of acre 2-8½

Yeomanstown West Contains 240-1-34 Pett. acuage charge of acre 2 3 lye by a fraction —

Thomastown including Dwars and Raheen Contains 222-0-4 Pett. at an acuage charge of 1 6¼ of acre lye by a fraction.

16th November 1833.

William R. Sterling.

Commissioner.
