Parish, or not to belong to them, Depts say they look upon it to have set the Pts a good bargain, that they could have set to some Glebe & Tythes to a solvent Tent. at the same Yearly Rent & before at a better Rent to a solvent Tenant, but in regard that Mr was Vicar of said Parish of Clonmell, & to accomodate him, they gave him.

Depts find by ancient Acts of their Revenue entered in one of their Chapter Books that in the year 1661 their whole Revenue amounted to but £41: 17: 4, ~~the then Aeconom. Charges himself with the Glebe of Clonmell made £17: 17: 4 the Tythes of the Parish of Clonmell made £17: 17: 4 of which the then Aeconom. Charges himself for the Glebe of Clonmell with the rent of £6: 0: 0 for the Tythes of the first of Clonmell £17: 17: 4~~ In the year 1662 their Revenue, as by the Acct of the then Aeconom. made £17: 0: 0, of which the Aeconom. charges himself for the Glebe of Clonmell in the Island 5: 0: 0 & for the Tythes of Clonmell 20. In the year 1640 the then Aeconom. charges himself to have Rec.d for the Rent of the Aeconomy for that year £45 ~~& at the same time~~ & at the same Rate in 1641, the whole Aeconomy being set then to two years to one Mr Charles Stavely as mentioned in said Acct; In the year 1661 the then Aeconom. charges himself for the Revenue of the Aeconomy for that year £41: 17: 4, & £6 he charges himself to have Rec.d for the Glebe of Clonmell & £17: 17: 4 for the Tythes of the first of Clonmell £17: 17: 4 In 1662 the Aeconom.

Aeconom. charges himself for the Revenue of that year £47 10 & what he charges himself, as mentioned in the Acct to have Rec.d of Mr Stavely & Co. for the Glebe in the Island £5 & for the Tythes of Clonmell £20 In 1663 their Revenue came to but £40. For the years 1664, 1665 & 1666 their ~~Revenue~~ Aeconomy was set to one Mr Francis Roberts at £20 a year, and Depts say that their Revenue now & for these some years past amounts to a year at the rate in the Acct. that reckoning the said Glebe & Tythes to be in proportion to other Tythes & Glebes belonging to them the said Glebe & Tythes of said first of Clonmell at the time said Pts signed said Lease in 1. were well worth the Rent they agreed to pay.

The whole Tythes of the Parish of Clonmell as Returned by John Webb in 1745 made £164: 11: 0, take off a third thereof in settling & there remains £110: 14: 0 make the two thirds where of belongs to Aeconomy £73: 16: 0, besides the Denom.n of Spike Island first was not valued, the Glebe belonging to Aeconomy is £30: 0: 0 & at 10 yrs reasonable enough, being a mile of the cove of Cork, makes £15: 0 — Depts are strangers to any Covenants said in bill to have passed between the said Tythers, they admit that Lease of the County Book, kept in the Court Office of the County of Cork, but dont know, nor can name a belief, whether said Books be a true Copy taken from the Down Survey, admit that at a Chapter held the 18th June 1747 they presented a Copy of the Denom.n in the several parts of Simpler of the Council
