Having been called on by Mr Jones & Mr Grayson to advise them with respect to an objection made by the former to the value at which part of his land (namely the Castle farm) has been estimated in the within applotment - and it appearing that by the 34th Section of the 6. Geo. 4. c. 99. the assessment & applotment thereby prescribed is required to specify the rate or sum by the acre at which the several sorts & qualities of ground within the Parish are to be charged - & the within document appearing deficient in the above respect, I have recommended that the Commissioners should forthwith recal the certificate of applotment formerly lodged by them in the Diocesan Registry, & transmitted by them pursuant to the act to the Churchwardens & other parties interested, & that they should proceed to complete the applotment conformably to the act, & having done so, again give public notice of hearing objections thereto pursuant to the act, & finally fix & ascertain their applotment & lodge same in the Registry.

Delgany 28 Decr. 1830 — E. S. Scott
