amount of Composition to be paid out of the said part of the said Parish of Aglis to the said Philip Crofs Esqr for and in lieu of all Tithes whatever to which the said Philip Crofs Esqr is entitled we do hereby afsess and apportion the following sums to be paid for and out of each and every acre of the following Rowlands and divisions being the Parts of the said Parish on which the said Philip Crofs Esqr is entitled to two thirds of Tithe – viz

— For the first Class – 2.. 3 per acre
— For the second Class – 1..6 per acre
— For the third Class – 1..½ per acre
— For the fourth Class 0..9 per acre
— For the fifth Class 0..4½ per acre
— For the sixth Class or waste nothing

The Rowlands or divisions above alluded to are Rooveshea – Rooveshmore – Smuck=shamane – Knockmagoul and Curraheb

And as the above scale of apportion=ment would make a larger sum of money than the sum certified and re=turned by us as a true and just Composition for the two thirds of Tithe payable to Philip Crofs Esqr. and which scale has been struck out by us the Commissioners to avoid the intricacy of calculation it is necessary there should be made a deduction of 14 $\frac{12502}{16347}$ pence in the pound from the sum annexed to Each Persons name.

Given under our hands this day of March 1825

Thos Roe Purcell for the parsonage
William Howard Stelland jun^r
for the Impropriator

Commissioners under the Tithe Com==position Act.
