Newcastle
23rd May 1831

My dear Sir I have taken the liberty of writing to
request that your Lordship will have the goodness
to call on a moment in writing to the Corporation
into which we have entered in the Parish of St. Andrew =
The Guildhall we reported to your Lordship to be
taken by a view of the streets and right of ground
to be in view of the several times - I was not
aware until the certificate was being signed that
a general assent was necessary - otherwise I would
have well assured to have obtained it before your
Lordship left the town = I am Sir your
obedient servant
