We find the parish of Scumplinee to contain
 by our survey and estimation thereof — One
 thousand eight hundred and seventy
 six acres and seventy four perches
 of which — One thousand, six hundred, and
 eighty seven acres — two rods and some perches
 marked first quality — and worth ^{per acre} two
 shillings, and six pence per acre shall pay
 the sum of ^{per acre} two shillings and two pence
 halfpenny per acre — and so in proportion
 for rods and perches as a composition for
 the tithes thereof — And we find that
 one hundred and eighty eight acres
 two rods, and fifteen perches marked second
 quality, and worth one pound ten shillings
 per acre, shall pay the sum of one shilling
 and five pence halfpenny per acre, and so
 in proportion for rods and perches — as a
 composition for the tithes thereof, and finally
 we find that the said sums payable out of
 the above mentioned quantities of land
 makes the sum of two hundred pounds
 Merq per annum — being the sum agreed
 on as a composition for the tithes of

Said parish — Given under our hand at
 Lifford this 14 day of October 1824
