$\frac{\pounds}{\text{to } 3884.12.9\frac{3}{4}} : \frac{\pounds}{210} :: \frac{\pounds}{1} : 13\frac{1}{2}\pounds \text{ nearly}$

13 pence per pound rent valuation gives about $8\frac{1}{4}\%$ turnover on the parish being $\pounds 210-8-4\frac{1}{4}$ - principally realised by charging hush to English & having no odd pence.
